

KEYSTONE EXAMS 2022 – PLEASE READ

April 2022

Dear Parents/Guardians of High School Students,

The Pennsylvania Department of Education requires students currently enrolled in Algebra I, Biology, or Literature & Composition II take a Keystone Exams in person. These exams will be administered on **May 16-19, 2022**. Make-up tests will be given **May 20 & 23, 2022**.

Additionally, students in Grades 10 & 11 who have previously scored non-proficient (basic or below basic) on a Keystone Exam may need to take an exam. If your student has to retake a Keystone test because they do not fulfill one of the various pathways to graduation, a letter will be mailed home. This letter will let students and parents know what exam(s) their student will need to retake.

For the graduating class of 2023 and beyond, along with satisfying the course requirements listed in Policy 217 for graduation, students must also satisfy the Keystone Exam requirements. This requirement has been established by the Pennsylvania Department of Education in Act 158 starting with the Class of 2023. The Class of 2023 and beyond will be required to fulfill one of the pathways listed in Act 158 to successfully graduate. In accordance with Act 158, students are expected to take the Keystone exams that are associated with the identified Keystone courses (Algebra I, Biology, Literature & Composition II). We have attached more information about Act 158, Graduation Pathways for the Class of 2023 and beyond with this letter.
